More flavor. Less smoke.

After hundreds of hours of recipe testing, our chefs have paired your favorite foods with recommended temperature settings to maximize grill flavors while minimizing smoke.

**LO / 400°F**
Best for bacon and sausages and when using thicker barbecue sauces.

**MED / 450°F**
Best for frozen meats and marinated ingredients.

**HI / 500°F**
Best for steaks, chicken, and burgers.

**MAX / up to 510°F**
Best for veggies, fruit, fresh and frozen seafood, and pizza.

**Always use recommended oils**

For less smoke, use oils with a high smoke point—like canola, avocado, vegetable, or grapeseed oil—instead of olive oil. If you choose to cook ingredients at a higher temperature than recommended, it may result in more smoke and food having a burnt, acrid flavor.
Perfectly done with the Foodi™ Smart Thermometer.

Dual Sensor Technology

The leave-in Foodi Smart Thermometer continuously monitors the internal temperature of food in two places for more accurate cooking results. The Smart Cook System lets you know when it’s time to take your food off the grill and let it rest.

How to place the thermometer

Once you’ve selected your cooking function, cooking temperature, protein type, and desired level of doneness, insert the Foodi™ Smart Thermometer into the thickest part of your protein while the grill is preheating.

**FOOD TYPE** | **PLACEMENT** | **CORRECT** | **INCORRECT**
--- | --- | --- | ---
Steaks | • Insert thermometer horizontally into the center of the thickest part of the meat. | ![Correct placement] | ![Incorrect placement]
Pork chops | • Make sure the tip of the thermometer is inserted straight into the center of the meat, not angled toward the bottom or top of it. | ![Correct placement] | ![Incorrect placement]
Lamb chops | • Make sure the thermometer is close to (but not touching) the bone and away from any fat or gristle. | ![Correct placement] | ![Incorrect placement]
Chicken breasts | • Insert thermometer horizontally into the thickest part of the breast, parallel to, but not touching, the bone. | ![Correct placement] | ![Incorrect placement]
Burgers | • Make sure the tip reaches the center of the thickest part of the breast and doesn’t go all the way through the breast into the cavity. | ![Correct placement] | ![Incorrect placement]
Tenderloins | | ![Correct placement] | ![Incorrect placement]
Fish fillets | | ![Correct placement] | ![Incorrect placement]
Whole chicken | • Insert thermometer horizontally into the thickest part of the breast, parallel to, but not touching, the bone. | ![Correct placement] | ![Incorrect placement]

**NOTE:** The thickest part of the fillet may not be the center. It is important that the end of the thermometer hits the thickest part so desired results are achieved.

**DO NOT** use the thermometer with frozen protein or for cuts of meat thinner than 1 inch.

For complete thermometer instructions, see your Ninja® Owner’s Guide.
Everyone’s idea of doneness differs. This guide shows you what you can expect from each of our preset beef doneness settings.

**NOTE:** Beef Doneness Guide is based on New York Strip Steak. Using different cuts of steak and different sizes can alter the outcome.

**Carry-over cooking**

Did you know that meat keeps cooking when you remove it from the grill? To prevent overcooking, the unit will beep right before your food reaches the desired doneness, taking carry-over cooking into account. Transfer meat to a plate with the thermometer still inserted and allow protein to carry-over cook and rest for 3–5 minutes. Skipping carry-over cooking and cutting into food right away may result in a rarer level of doneness.

**NOTE:** Reference usda.gov for food-safe temperature recommendations.

---

**Reasons meat cooks differently**

No two pieces of protein are alike, and, for that reason, they’ll never cook the same. That’s why we recommend paying close attention to the sizes of meat listed in our cooking charts. Here are some more tips to ensure a great cooking experience.

**Cut size**

Proteins come in different shapes and sizes, which require different cooking times. If you are cooking proteins that are different sizes, insert thermometer into the smaller protein first, as it will cook faster than the larger one. For cuts 2 inches or thicker (e.g., filet mignon) we recommend selecting the lower temperature setting within the desired doneness category (e.g., Rare 1 instead of Rare 2).

**Meat temperature**

For your convenience, cooking charts were created for use with cold meat, straight from the fridge. For even juicier results, if time permits, let meat come to room temperature for about 30 minutes before cooking for a more juicy center.
Flavor-Building 101
Pumped-Up Marinades, Zesty Spice Rubs, and Elevated Dipping Sauces

For the following recipes, add all ingredients to a bowl and mix well.

These marinades and spice rubs call for coarse kosher salt—ensure you use that, and not fine-grain iodized salt.

Use spice rubs liberally. Season meat or vegetables generously and let sit at room temperature for 30 minutes before grilling—this will promote faster and even cooking.

Frozen to char-grilled

When grilling frozen meats, baste them liberally and consistently with the marinade of your choosing.

To get the best textures and flavors from frozen meat, season it with your favorite spice rub before grilling.

2 tablespoons Dijon mustard
4 teaspoons garlic, minced
2 tablespoons fresh dill, finely chopped

DIRECTIONS
1 Plug thermometer into unit. Insert grill grate into the unit and close hood. Select GRILL, set temperature to MAX, and PRESET. Use the arrows to the right of the display to select FISH. Use the arrows to the left of the display to set desired doneness. Press START/STOP to begin preheating. Insert thermometer horizontally into the center of the thickest part of the salmon and place on the right side of the unit while it preheats (see thermometer placement instructions on page 7).
2 While unit is preheating, coat salmon skin with oil. Flip and season the flesh with salt and pepper, then place lemon slices in a row down the center.
3 In a medium bowl, combine lemon juice, mayonnaise, mustard, garlic, dill, salt, and pepper.
4 When unit beeps to signify it has preheated, place salmon on grill grate skin side down, and close hood over thermometer cord.
5 When unit beeps and the display reads FLIP halfway through cooking, do not flip the salmon. Instead, spoon the mayonnaise mixture in a thin layer over the top (flesh side) of the fillet. Close hood to continue cooking.
6 When unit beeps to signal the fish has almost reached the desired doneness, transfer to a plate or cutting board with thermometer still inserted. Allow to rest for 2-3 minutes or until thermometer indicates final temperature has been reached.

MAPLE-GLAZED BUTTERNUT SQUASH

BEGINNER RECIPE

PREP: 15 MINUTES | PREHEAT: APPROX. 3 MINUTES | ROAST: 40-45 MINUTES | MAKES: 6-8 SERVINGS

INGREDIENTS
2 medium butternut squash, cut in half vertically, seeds removed
1 tablespoon plus 1 teaspoon vegetable oil
1/2 teaspoon ground black pepper
1 teaspoon kosher salt, divided
4 tablespoons brown sugar
4 tablespoons maple syrup
2 tablespoons unsalted butter, softened
2 teaspoons fresh thyme, for serving

DIRECTIONS
1 Rub the squash halves with vegetable oil, then season with pepper and 1/2 teaspoon salt.
2 Insert pot in unit and close hood. Select ROAST, set temperature to 375°F, and set time to 45 minutes. Press START/STOP to begin preheating.
3 When unit beeps to signify it has preheated, place the squash halves skin side down in the pot, with the flesh sides facing up. Close hood and cook for 20 minutes.
4 Meanwhile, mix the brown sugar, maple syrup, butter, and remaining 1/2 teaspoon salt in a small bowl.
5 After 20 minutes, use silicone-tipped tongs to flip the squash halves so the flesh sides face down. Close hood and cook for 15 minutes.
6 After 15 minutes, flip the squash again so the flesh sides are up. Spoon the sugar mixture over the top of the squash. Close hood and cook for 5 minutes.
7 After 5 minutes, check on the squash. If more browning is desired, close hood and cook up to 5 more minutes, checking frequently.
8 When cooking is complete, transfer squash to a serving plate. Garnish with fresh thyme and serve immediately.

TIP If your squash are too large, trim the sides off a bit in order to fit all 4 pieces in the pot.
VEGETABLE FLATBREAD

BEGINNER RECIPE

PREP: 15 MINUTES | PREHEAT: APPROX. 10 MINUTES | GRILL: 7–10 MINUTES | MAKES: 4–6 SERVINGS

DIRECTIONS

1. Remove pizza dough from the bag and place on a clean counter or cutting board. Use your hands to coat the dough with 1 teaspoon olive oil, then let dough rest for 15 minutes at room temperature.

2. Insert grill grate in unit and close hood. Select GRILL, set temperature to HI, and set time to 10 minutes. Press START/STOP to begin preheating.

3. While unit is preheating, stretch out the dough into a rectangle roughly 9“ x 6” in size.

4. When unit beeps to signify it has preheated, place dough on the grill grate. Close hood and cook for 3 minutes.

5. After 3 minutes, use silicone-tipped tongs to flip the dough. Close hood and cook for 1 more minute.

6. Next, add toppings. First, spread the extra virgin olive oil and minced garlic over the flatbread. Then lay the squash and zucchini slices in rows, covering the entire flatbread. Finish by sprinkling the flatbread with grated parmesan and crushed red pepper.

7. Close hood and cook for 3 more minutes.

8. After 3 minutes, check toppings for desired doneness, cooking up to 3 more minutes if desired.

9. When cooking is complete, garnish flatbread with basil and serve.

INGREDIENTS

1 bag (1 pound) store-bought pizza dough
1 teaspoon olive oil
1 tablespoon extra virgin olive oil
1 teaspoon garlic, minced
1/4 cup yellow squash, thinly sliced
1/4 cup zucchini, thinly sliced
1/2 cup parmesan cheese, grated
1/2 teaspoon crushed red pepper
1/4 cup fresh basil, chopped
MEXICAN STREET CORN

BEGINNER RECIPE

PREP: 10 MINUTES  |  PREHEAT: APPROX. 10 MINUTES  |  GRILL: 12 MINUTES  |  MAKES: 6 EARS OF CORN

DIRECTIONS

1. Insert grill grate in unit and close hood. Select GRILL, set temperature to MAX, and set time to 12 minutes. Press START/STOP to begin preheating.
2. While unit is preheating, rub each ear of corn with ½ tablespoon canola oil, then season with salt and pepper as desired.
3. When unit beeps to signify it has preheated, place corn on grill grate. Close hood and grill for 6 minutes.
4. After 6 minutes, flip corn, then close hood and continue cooking for 6 more minutes.
5. Meanwhile, mix all remaining ingredients in a bowl.
6. When cooking is complete, remove corn and cover each ear liberally with mayonnaise mixture. Garnish with cilantro, if desired, and serve.

TIP: For an easier-to-eat salad, cut the grilled corn off the cob, then combine with half the mayo mixture.

GRILLED APPLE TARTS

INTERMEDIATE RECIPE

PREP: 20 MINUTES  |  PREHEAT: APPROX. 10 MINUTES  |  GRILL: 9 MINUTES  |  MAKES: 8 SERVINGS

INGREDIENTS
2 teaspoons ground cinnamon  
4 tablespoons granulated sugar  
8 teaspoons brown sugar, divided  
4 medium apples, thinly sliced  
1 1/2 teaspoons lemon juice  
1/4 teaspoon kosher salt  
1 package (8 rounds) premade biscuit dough  
Cooking spray

DIRECTIONS
1. Combine cinnamon, granulated sugar, and brown sugar in a small mixing bowl and set aside.
2. In a medium mixing bowl, combine apples, lemon juice, salt, and 1 1/2 tablespoons cinnamon-sugar mixture. Mix until apples are evenly coated.
3. Separate biscuit dough and place on a piece of parchment paper or greased countertop. Use a rolling pin or your hands to form each piece of dough into 5 x 4-inch ovals approximately 1/8 inch thick.
4. Insert grill grate and close hood. Select GRILL, set temperature to LO, and set time to 9 minutes. Press START/STOP to begin preheating.
5. While unit is preheating, place 1/2 cup apple mixture on each oval of dough, leaving a 1/2-inch space on either side, and a 1-inch space on the top and bottom.
6. Fold the sides up around the apple mixture, leaving an inch of apples exposed in the center. Seal the top and bottom of the dough by pinching exposed portion firmly and twisting clockwise to form a canoe-like shape.
7. Coat each tart liberally with cooking spray and sprinkle with the remaining cinnamon-sugar mixture.
8. When unit beeps to signify it has preheated, place tarts on grill grate. Close hood and cook for 6 minutes.
9. When cooking is complete, remove tarts. Serve immediately with vanilla ice cream or whipped cream.

TIP: Other fruits, such as pears, can be substituted for the apples.
