In today’s go-go-go world, everyone’s got a couple go-to recipes. But what if you had a hundred or more? And your taste buds were never bored? Imagine making full meals in minutes, in the same pot. Or perfectly poached eggs at the touch of a button. Or takeout favorites right at home. Now, stop imagining it and start cooking—thanks to the Ninja Cooking System with Auto-IQ™ Recipes, you win big at breakfast, lunch and dinner.
AUTO-IQ™ RECIPE PROGRAMS
Gone are the days of guessing in the kitchen. These four cooking modes do the thinking for you.

QUICK MEALS
All of these recipes are especially designed to get you in and out of the kitchen, quick and easy. Just add your ingredients and hit the button. All that’s left to do is enjoy.

LAYERED BOWLS
These two-step recipes use the Auto-IQ Cooking System as a stovetop to sear proteins and build layers of flavor before cooking to perfection.

GRAINS
Cook grains such as oats and quinoa to the perfect consistency with the touch of a button.

POACHED INFUSIONS
Use this setting to poach fish, fruit, and more—like poached eggs for breakfast or shrimp cocktail for a classic dinner party appetizer.

MANUAL FUNCTIONS
These four functions make fundamental kitchen techniques easier and more convenient.

SLOW COOK
Worry-free ACCUTEMP temperature control operates behind the scenes to ensure your meals aren’t overcooked or underdone, so you can slow cook with confidence.

BAKE
With a controllable range of temperatures from 250°–425°F, you can dry bake hearty roasts or steam bake breads, cakes, and more.

STEAM
Steam veggies for that delightful snap, or steam light proteins like seafood to play up their naturally subtle flavors.

STOVE TOP
An innovative heating element turns your Cooking System into a skillet so you can sear meats and sauté vegetables in one pot.
TRICKS OF THE TRADE
Here are a few tips to help you get the most out of your Auto-iQ™ Cooking System.

AT THE STORE
Organize your grocery list by the sections of your grocery store to make shopping a breeze. Buy pre-cut vegetables when available to cut down on prep time.

PREPARE YOUR KITCHEN
Have the right tools on hand for prepping and measuring your ingredients. You will need both dry and liquid measuring cups (check out the next page to see why).

Designate a small container on your counter for trash-like package wrappings, vegetable trimmings, and used paper towels.

ALWAYS USE GOOD FORM
Familiarize yourself with the recipe by re-reading the ingredient list and directions. Gather your ingredients, then measure and organize them by step. Always use nonstick-safe utensils to avoid damaging the cooking pot’s nonstick coating.

Meal need to be cooked a little longer? Simply set to BAKE DRY at 350° F for 5–10 minutes, checking for desired doneness.

POACH PERFECT

POACHED INFUSIONS & STOCKS

Want delicate flavor that’ll make your taste buds sing? Lightly poach everything from fish to eggs at the touch of a button (yes, really!). You can even experiment with different poaching liquids—like wines, milks, or stocks—to up the flavor ante.
**EGGS**

1. Crack eggs into a single bowl.
2. Pour water into the cooking pot and cover. Select Auto-IQ Poached Infusions: Recipe 1, 2, 3, or 4 and press the START/STOP button. The water will start heating up to a gentle simmer.
3. At the first beep, which signifies the water has come to a simmer, the display will read "Add." Lift lid and pour eggs carefully into water. Cover pot and press the START/STOP button.
4. While eggs are poaching, line a plate with a paper towel and have a slotted spoon ready.
5. At the second beep, transfer eggs one by one with the slotted spoon onto the paper-towel-lined plate.

**SHRIMP**

1. Pour liquid and any seasonings into the cooking pot and cover. Select Auto-IQ Poached Infusions: Recipe 5 or 6 and press the START/STOP button. The liquid will start heating up to a gentle simmer.
2. At the first beep, which signifies the liquid has come to a simmer, the display will read "Add." Lift lid and add shrimp carefully to liquid. Cover pot and press the START/STOP button.
3. While shrimp are poaching, place a colander in your sink.
4. At the second beep, CAREFULLY remove the cooking pot using oven mitts and drain shrimp in the colander.
5. Pat shrimp dry, then chill in refrigerator for 1–2 hours.

**TIPS**

To help keep the egg whites from separating, add 1 tablespoon vinegar to the water.

Make Eggs Benedict, found on Page 98, with this process.

Crack your eggs first. This helps speed up the process and gives you more control over those delicate egg yolks, rather than cracking them right into the pot.

BEST FISH FOR POACHING

- Salmon
- Cod

- 1 tablespoon ancho chili powder
- 1 tablespoon fennel seed
- 1 orange, zested, juiced
- 1 tablespoon chipotle peppers
- 2 tablespoons cumin seed

TIPS

Mix it up by trying different poaching liquids like red or white wine, broth/stock, or coconut milk.
- Use a dry white wine, like pinot grigio or sauvignon blanc. Use a 1-to-3 ratio of wine to water.
- Use 3-to-1 ratio of coconut milk to water.

Make a reduction by straining the poaching liquid through a fine mesh sieve, discarding the vegetables and aromatics but reserving the liquid. Return liquid to pot, add 1/3 cup heavy cream, and cook on STOVE TOP HIGH for roughly 30 minutes, until the liquid has reduced by 75%. Turn unit off, and slowly whisk in 6 ounces cold butter cut into small cubes. Serve over your poached fish.

- 6 slices Canadian bacon
- 6 poached eggs (see PROGRAM 3, page 20)
